

Announcements for the Week of July 14, 2019

From me to you ...

A little more than a year ago, we began the restoration and refurbishing of our Nave's stained glass windows. We wondered what it would be like to have weddings, or even Christmas Eve, with some of the windows covered in plywood—those that had been taken to the Botti Studio of Architectural Arts in Chicago for intricate work. You will recall the removal of the yellowed plexiglass coverings that were worn with age and weather abuse. You will recall how dim it was without natural light coming through those windows. On the other hand, you may even not remember because the project took such a long time!

On Pentecost this year during the 10:15 a.m. liturgy, the lights were extinguished to highlight the restored windows' beauty and power, as we prayed the prayer written for their rededication by Randal Loy. Many of you have remarked about the holiness and special feelings of that moment, and how blessed we are to share in such beauty. It was indeed a time of remembrance and thanksgiving for us all. The Cathedral was able to make such a project possible through the generosity of the David T. Beals III Charitable Trust. A project as costly as this one could never have been considered without it. How privileged we are to have such resources available to us, resources that have been designated by faithful parishioners for the continued renewal and upkeep of our historic property. Please stop and give thanks for the love and generosity of those who have been here before us, when you see such care for our holy place of worship.

See you in church!

Did You Know?

Fun Fact about the Saint John's Bible

While calf vellum was used as the writing surface for the original manuscript, chosen due to the fact that it is more forgiving than paper as well as its long-lasting quality which can last for centuries, the paper of the Heritage Edition was designed specifically for that project. The weight and feel of the pages approximate that of the vellum used in the original manuscript. The technology used for the printing of the Heritage Edition was not yet invented when the Gospels manuscript was completed.
